Experiences

- **Freelancer** *Nov 2022 – present*
Developed and designed websites, branding materials, and offered training for clients. Recognized within the freelance and content creators' community for strong technical support and creative solutions.
- **Programming Team leader – MYTE** *June 2023 – April 2024*
Led the programming department of MYTE, a Saudi digital services company. Successfully improved project turnaround time and delivery quality before the company was shut down for legal reasons.
- **Front-End Web Dev – Virgo** *Nov 2024 – Feb 2025*
Worked on the front-end development of a Hajj and Umrah software system. Developed the UI using modern technologies, although the project was later discontinued.
- **Games Designer** *June 2024 – March 2025*
Designed documentation and game concepts for indie game developers. Handed over responsibilities due to external commitments.
- **Podcast Founder – Muallak** *July 2025 – present*
Founded the podcast from scratch and managed everything related to it; recording, video editing, designing and marketing.
- **Storekeeper & IT specialist – Telkom Internet Company** *Aug 2025 – Nov 2025*
Worked as storekeeper and IT specialist at the same time, managed the storage and started to develop a system for them to manage their work, also helped setting some of their servers.

▪ **IT specialist – Telcom Internet Company**

Nov 2025 – Jan 2026

Continued developing the system remotely from home because my university was in another city, my job is done by finishing and setting up the system.
